

Disclaimer: This product is NOT comprehensive and consists only of codes commonly related to audiology services. Mappings are only to ICD-10-CM codes, not ICD-10-PCS. Every effort was made to accurately map codes using detailed analysis. Keep in mind, however, that while many codes in ICD-9-CM map directly to codes in ICD-10, in some cases, additional clinical analysis may be required to determine which code or codes should be selected for your situation. Always review mapping results before applying them.
